REF: 2017/39 (17/50583)

Land: 410 O'Gradys Road KINGLAKE CENTRAL 3757

Proposal: Use of land for the manufacturing of alcoholic spirits with a spirit cellar door and cafe/restaurant in and around the existing shed and signage

Applicant: C R Daniels

Zoning: Farming

Overlays: Environmental Significance – Schedule 1

Attachments: Application Details (refer *Attachment 6.1* – TRIM 17/50594)
(aerial photograph and submissions distributed separately)

Locality Plan:**Purpose:**

This report recommends that a notice of decision to grant a permit be issued for manufacturing of alcoholic spirits with a spirit cellar door and cafe/restaurant in and around the existing shed at 410 O'Gradys Road, Kinglake Central.

Officer Recommendation:

That Council issue a notice of decision to grant a permit for the use of land for the manufacturing of alcoholic spirits with a spirit cellar door and cafe/restaurant in and around the existing shed at 410 O'Gradys Road, Kinglake Central (LOT: 3 LP: 94810, Parish of Flowerdale), subject to the following conditions:

1. Prior to the commencement of the use hereby permitted a waste management plan shall be submitted to and approved by the Responsible Authority. This plan must detail how the by-products from the manufacturing process will be managed to the satisfaction of the Responsible Authority. When approved this plan shall be endorsed and form part of this permit.
2. This permit shall expire if the use hereby permitted has not commenced within two (2) years of the date hereof, or any extension of such period the Responsible Authority may allow in writing, on an application made before six months after such expiry.
3. The use hereby permitted must only occur within the red line area shown on the plan endorsed as part of this permit.
4. The permitted hours open to the public are between 12pm and 7pm Monday to Sunday, except with the prior written consent of the Responsible Authority for four (4) events each calendar year. Application for such consent must be made in writing at least 2 weeks prior to the event.
5. The maximum number of patrons permitted on site at any one time is twenty (20) persons.

6. The use hereby permitted shall not cause nuisance or injury to, or prejudicially affect the amenity of the locality, by reason of the transportation of materials, goods and commodities to and from the land, the appearance of any building, works, or materials on the land, the emission of noise, vibration, smell, fumes, smoke, vapour, steam soot, ash, dust, waste water, waste products, grit, oil or the presence of vermin or otherwise.
7. The subject land must be kept neat and tidy at all times and its appearance must not, in the opinion of the Responsible Authority, adversely affect the amenity of the locality.
8. All onsite wastewater and stormwater management shall be in accordance with the recommendations outlined within the Land Capability Assessment prepared by Ground Science (Report Reference: E2562.1 AA, dated 15 June 2017).
9. Prior to the commencement of the use hereby permitted, the applicant shall obtain a septic tank permit from Council.
10. Prior to the commencement of the use hereby permitted the existing wastewater system shall be decommissioned.
11. Prior to the commencement of the use hereby permitted, a sign or signs to the satisfaction of the responsible authority must be provided directing drivers to the area(s) set aside for car parking and must be located and maintained to the satisfaction of the responsible authority. The area of each sign must not exceed 0.3 square metres.
12. Car spaces, access lanes and driveways must be kept available for these purposes at all times.
13. The sign hereby permitted shall be located wholly within the boundary of the subject land and shall be kept in good order and maintained to the satisfaction of the Responsible Authority.

Proposal:

The proposal is to use the land for the manufacturing of alcoholic spirits with a spirit cellar door and café/restaurant to be located in and around the existing shed. The proposed hours of operation are: 12pm to 7pm on weekends and public holidays, 12pm to 7pm, by appointment on weekdays (with a maximum visit duration of 2 hours), and 12pm to 10.30pm for special events. The café/restaurant is proposed to be limited to 20 patrons.

The Land and Surroundings:

The subject land is 19.59 hectares in size, bounded by O'Gradys Road to the west and private properties on all other sides. The land in all directions is used for farming purposes, with single dwellings and associated shedding to the north, south, and west. None of the dwellings are visible from the site. There is a current planning permit for the construction and use of a dwelling and tree removal on the subject land.

Referrals:

The application was referred to Council's Environmental Health Unit, Economic Development Unit, and Development Engineer. No objections were received subject to a range of conditions.

The application was not referred to the Country Fire Authority as the land is currently not in a Bushfire Management Overlay (BMO). Under the BMO, there is no requirement for a planning permit for the proposed use and associated minor buildings and works.

Consultation:

Nearby and adjoining owners were notified by way of a letter. A notice was also erected on-site. Three submissions were received, raising a range of issues with the proposal, as follows:

- Road access on Johnsons Road and O'Gradys Road is unsuitable to carry proposed traffic numbers
- Access to and from property on Johnsons Road will be more dangerous
- Johnsons Road is currently single lane; slippery in wet conditions and a dust hazard when dry; surface is rutted with potholes
- Alcohol-affected drivers will increase risk
- Increased traffic will cause disruption to local residents and wear and tear on gravel road
- Proposed increase in heavy traffic (trucks delivering grain, gas and food)
- Potential fire risk from production and storage of alcohol based products in close proximity to natural bushland
- Insufficient application detail – e.g. type, capacity and location of water treatment plant; details about spent water for crops (testing, preventing soil contamination); handling hazardous materials (stored, transferred, disposed of); no hazard risk assessment; environmental impacts; and use of grain by-product (e.g. indicates it will be used for animal feed, but no animals on property)

The applicant responded to the concerns raised by the objections and advised the following:

- Cellar door open weekends and public holidays and the applicant does not believe traffic will have significant effect on quality or congestion of O'Gradys Road
- Other local attractions (e.g. Wombelano Falls with estimated 20,000 visitors a year) found on unsealed roads and do not experience significant problems with visitors, and have more traffic than anticipated at distillery
- Road allows users to easily pass other vehicles without pulling off the road
- Distillery to be built in line with all safety guidelines and criteria; services to be installed by certified electricians and gas technicians and checked regularly
- Whisky itself is not a volatile product and represents little fire risk. Fire fighting provisions to be installed
- Distilling is not a high fire-risk enterprise and there is no record of a fire at a distillery in Australia for over 50 years
- Unsealed roads are a part of rural Australia and Kinglake and should be worked with in the condition found
- Impact of distillery deliveries will be minimal with one grain delivery and one gas delivery every 2 to 4 weeks.
- Outsourced catering would be from local Kinglake businesses already using local roads. The applicant generally plans to pick up catering supplies
- A land capability assessment has been provided to determine wastewater management requirements
- Excess water will be used for in irrigation on property
- Numerous local properties in close proximity, with livestock, have indicated they would be happy to receive free animal feed, but exact details yet to be decided
- Proposed normal operating hours for the distillery are during daylight

Upon receipt of the applicant's response, one objector reiterated their concerns, highlighting:

- The applicant indicates gas and grain deliveries every 2-4 weeks in their response; not every 3 months, as stated in original application.
- Concerns with how by-product will be managed.

Newspaper / Other	Publishing/Consultation Date(s)
<i>Mail out: Nearby and adjoining owners</i>	20 April 2017

Planning Considerations:

The proposed distillery, cellar door, and café/restaurant will use existing buildings and will not result in the loss of agricultural land. The land is well buffered by existing vegetation from adjoining properties and the proposed use will not affect the ability to farm the land.

The proposal is based on 20 patrons. Although the supporting documentation mentions large events, it did not form part of the proposal and the Land Capability Assessment does not support more than 20 patrons. The access has been assessed on the basis of limited vehicle numbers.

The submissions to the application raised concerns about the road access and environmental impacts of the proposed use. Johnsons Road, between Extons Road and O'Gradys Road, is classified as an Access Track, which is not suited to high numbers of vehicles. However, the property can be accessed via O'Gradys Road from Pheasant Creek Road. O'Gradys Road is an unsealed Access Road that has been recently graded. It has a narrow section of about 1.2km with sharp bends and guide posts have been installed throughout the whole road length.

The application has been assessed by Council's Development Engineer who determined that O'Gradys Road is acceptable for this type of low impact use. The maximum number of people that would be permitted on site at any one time is 20 which will limit the additional vehicle traffic generated by this proposal.

The application has been assessed by Council's Environmental Health Unit, and it is satisfied that the proposal can be developed in a way that will have no detrimental impact on the broader environment. Wastewater management will be in accordance with the Land Capability Assessment submitted as part of the application. A plan addressing how waste from the manufacturing process will be managed must be submitted to and approved prior to the commencement of the use.

Agriculture and tourism are both key sectors in the municipality and the proposal meets the objectives of the Local Planning Policy Framework to create a strong economy and support diverse and entrepreneurial business, by encouraging growth of small businesses and niche industries, as well as facilitating diversification of agricultural industries.

The proposed distillery encourages the retention of productive agricultural land, will promote jobs in the area, and will not limit the operation and expansion of adjoining and nearby agricultural uses. The use of existing buildings will ensure no change to existing agricultural use of land or affect neighbouring properties, which is in line with state and local planning policies for agriculture, as well as the Farming Zone and Environmental Significance Overlay.

Conclusion:

The proposed distillery, cellar door, and café/restaurant accords with the relevant planning provisions as it encourages the retention of productive agricultural land and the retention of employment, and will not limit the operation and expansion of adjoining and nearby agricultural uses, which is supported by the Murrindindi Planning Scheme. The addition of a cellar door of this type and the café/restaurant would be positive for the local economy, by giving visitors more options and potentially improving the likelihood of overnight stays.

Council Plan/Strategies:

The application is being assessed in accordance with the following goals and strategies in the Murrindindi Shire Council Plan 2017-2021:

- Our Prosperity: Work with our businesses, regional partners and communities to support a diverse visitor experience that promotes our natural assets, and a vibrant range of events
- Our Place: Through good land use planning enhance the liveability, prosperity and rural character of our Shire

Legal/Policy Issues:State Planning Policy Framework11.12-1 *Hume – A diversified economy*

Objective: To develop a more diverse regional economy while managing and enhancing key regional economic assets.

Strategies:

- Plan for a more diverse regional economy while managing and enhancing key regional economic assets and encouraging appropriate new forms of tourism
- Support tourism activities that take advantage of the rural environment without compromising their future
- Facilitate rural tourism activities that support agricultural enterprises such as cellar door and farm gate sales and accommodation in appropriate locations

14.01-1 *Protection of agricultural land*

Objective: To protect productive farmland which is of strategic significance in the local or regional context.

Strategies:

- Planning for rural land use should consider:
 - Land capability

17.03-1 *Facilitating tourism*

Objective: To encourage tourism development to maximise the employment and long-term economic social and cultural benefits of developing the State as a competitive and international tourist destination.

Strategies:

- Encourage the development of a range of well designed and sited tourist facilities

Local Planning Policy Framework21.02 *The Planning Vision*

Murrindindi Shire will facilitate sustainable economic growth. The municipal rate base will be actively grown through sound planning, support for continued economic development and protection of the natural and built environment.

A strong economy will attract people to the municipality and increased economic growth will enhance population growth and employment for the municipality.

How we will achieve our vision:

- Growth in economic activities to create long term economic sustainability for the municipality
- Facilitation of new economic development and employment opportunities

- Expansion and promotion of the tourism industry for a range of existing and emerging activities
- Continued growth in the agricultural sector, including emerging niche areas

21.03-1 *Business and Industry*

Objective 1: Create a strong economy to promote business investment and expansion, population growth and social and cultural benefits to the community.

Strategies:

- Encourage the growth of small businesses and niche industries
- Revitalise economies and employment in communities affected by the 2009 bushfires

21.03-2 *Agriculture*

Objective 1: Support and grow agriculture as one of the Shire's principal economic activities.

Strategies:

- Encourage the production of agricultural product for niche markets

Objective 2: Protect rural land for productive agricultural uses and compatible rural uses.

Strategies:

- Ensure that the use of rural land protects and enhances agricultural potential and the productive capacity of the land
- Ensure that the use of rural land is compatible with surrounding agricultural activities
- Identify and protect high quality agricultural land, ensuring that it is available for ongoing agricultural use

Zoning

35.07 *Farming Zone*

Purpose:

- To encourage the retention of productive agricultural land
- To ensure that non-agricultural uses do not adversely affect the use of land for agriculture
- To encourage the retention of employment and population to support rural communities

Decision Guidelines:

- The capability of the land to accommodate the proposed use
- How the use relates to sustainable land management
- Whether the site is suitable for the use and whether the proposal is compatible with adjoining and nearby land uses
- How the use makes use of existing infrastructure and services
- Whether the use will support and enhance agricultural production
- Whether the use will adversely affect soil quality or permanently remove land from agricultural production
- The potential for the use to limit the operation and expansion of adjoining and nearby agricultural uses

A planning permit is required to use the land for manufacturing sales and restaurant in the Farming Zone.

Overlays

42.01 *Environmental Significance Overlay – Schedule 1*

Purpose:

- To identify areas where the development of land may be affected by environmental constraints

Environmental objective to be achieved:

- Recognise the finite nature of high quality agricultural land
- Protect high quality agricultural land
- Prevent the conversion of high quality agricultural land to non soil based development

There are no permit triggers under this overlay.

Particular Provisions

52.06 *Car Parking*

Purpose:

- To ensure provision of an appropriate number of car parking spaces having regard to the demand likely to be generated

This provision applies to the new use.

0.4 car spaces are required for each patron permitted.

6.2 SUPPLEMENTARY VALUATIONS

Ref: CY176/21 (17/49706)

Purpose:

This report seeks to advise and update Council on the supplementary valuations for the 2016-2017 financial year.

Officer Recommendation:

That the supplementary valuations of the Murrindindi Shire Council for the period 1 July 2016 to 30 June 2017 as contained within this report be noted by Council.

Background:

This report provides a summary of supplementary valuations processed throughout the financial year, provided by rate category.

Whilst all properties within the municipality are revalued every two years, in line with State Government requirements, in certain circumstances valuations must be determined between general revaluations. These are known as supplementary valuations and are required when the circumstances of a property changes which affects the property's value.

Council Plan/Strategies:

This report is consistent with the Council Plan 2017-2021 Our Promise strategy to maintain Council's financial sustainability through sound financial management.

Legal/Policy Issues:

Supplementary valuations are made under Section 13DF of the *Valuation of Land Act 1960*. All supplementary valuations returned are certified by the Valuer General.

Financial/Resources/Risk:

In 2016-2017 Council budgeted for 1% growth or \$154,769 from supplementary valuations, Council has achieved \$79,921 (0.52%) pro-rata in rate revenue from supplementary valuations, which is \$74,848 below budget.

The shortfall in revenue for 2016-2017 is offset by gains made in interest on investment income, which has exceeded the revised budget by \$100,462.

Discussion:

A table of the valuation movement for rate adjustment is outlined below:

	Budget 2016-2017	Revaluation CIV 01/07/2016	Rateable CIV 30/06/2017	Capital Improved Valuation movement	Rate Revenue \$
Residential	1,651,456,000	1,670,518,800	1,692,523,800	22,005,000	91,380
Commercial and Industrial	191,677,000	189,091,000	190,354,000	1,263,000	5,548
Rural 1	1,279,250,000	1,273,955,000	1,262,228,000	-11,727,000	-24,792
Rural 2	813,313,000	819,159,000	821,952,000	2,793,000	9,717
Vacant Land	126,608,200	108,448,000	104,380,000	-4,068,000	-21,442
Municipal Charge					19,510
Totals	4,062,304,200	4,061,171,800	4,071,437,800	10,266,000	79,921

Supplementary rates growth has not achieved the target of 1.0% in 2016-2017. Growth has been hampered by a decrease in applications for rebuilding on land affected by the 2009 Bushfires, which has been the predominant driver of supplementary rates growth over the past 7 years. The amount of properties that have received building approvals that were affected by the Bushfires slowed substantially in 2015-2016 and again with little movement in 2016-2017, increasing from 51% in 2014-2015, 54% in 2015-2016 and is now only 56% in 2015-2016. This means that nearly half of all properties damaged during the 2009 fires remain undeveloped or developed to a lesser standard of Capital Improved Value (CIV).

The temporary planning provisions for properties impacted by the 2009 Bushfires (planning consent) will expire on the 30 September 2017. Information sessions have been arranged for late July 2017 designed to ensure the best take up of the simple planning process that can be assessed up until that time.

Council is focused on facilitating opportunities for appropriate new development in the Shire and a number of new initiatives will be implemented under the life of the new Council Plan 2017-2021 in this regard.

Although the target of 1% growth in supplementary valuations was not achieved in 2016-2017, the table below indicates that there has been a positive trend in development activity over the last 3 years, with the value of recent building permit approvals likely to result in increased supplementary valuations in future years as these developments are completed.

Year	Value	% change from previous year
Value of building permits issued by Council		
2014/15	\$19.08 million	10.5% increase
2015/16	\$19.77 million	3.6% increase
2016/17	\$26.24 million	32.0% increase
No. of new developable lots created (rateable assessments)		
2014/15	29	0.3% increase
2015/16	102	1.1% increase
2016/17	28	0.2% increase

Conclusion:

It is appropriate at the conclusion of a financial year to recognise the supplementary valuations processed throughout the 2016-2017 financial year and bring them to account.

6.3 AUDIT ADVISORY COMMITTEE ANNUAL REPORT 2016-2017

REF: SF/290 (15/51898)

Attachment: Audit Advisory Committee Annual Report 2016-2017 (refer *Attachment 6.3 - TRIM 17/51870*)

Purpose:

The purpose of this report is to provide Council with the Annual Report of the Audit Advisory Committee activities for 2016-2017, as received from the Chair of the Committee, Ms. Michele Sheward.

Officer Recommendation:

That the Audit Advisory Committee Annual Report 2016-2017 prepared by the Audit Committee Chair (Ms Michele Sheward), as enclosed, be received.

Background:

The Audit Advisory Committee is responsible to Council for the provision of advice and recommendations on matters relevant to its Charter in order to assist Council with meeting its financial and fiduciary responsibilities.

As the annual term of the Chair of the Committee was recently changed from a calendar year to a financial year, the attached report also includes reference to the period January 2016 to June 2016, as this was not covered in the most recent Annual Report provided received by Council in December 2015.

Council Plan/Strategies:

This report is consistent with the Council Plan 2017-2021 strategy under Our Promise to maintain Council's financial sustainability through sound financial and asset management.

Legal/Policy Issues:

An Annual Report to Council is one of the requirements per *Section 2(o) of the Charter of the Audit Committee*.

Financial/Resources/Risk:

There are no financial or risk implications with the presentation of the Audit Advisory Committee Annual Report 2016-2017.

Discussion:

The report, as detailed in *Attachment 6.3*, provides a summary of activities of the Audit Advisory Committee during the 2016-2017 financial year.

Consultation:

The preparation or receipt of the Committee's Annual Report did not require community consultation.

Conclusion:

The Annual Report on the activities conducted by the Audit Advisory Committee provides Council with assurance that the Committee is fulfilling its prime objective to assist Council with meeting its financial and fiduciary responsibilities.

REF: CY17/114 (17/51276)

Purpose:

This report presents the records of assemblies of Councillors for 21 June 2017 to 12 July 2017, for Council to note in accordance with Section 80A of the *Local Government Act 1989 (Act)*.

Officer Recommendation:

That Council receives and notes the record of assemblies of Councillors for 21 June 2017 to 12 July 2017.

Background:

In accordance with Section 80A of the *Act*, written assemblies of Councillors are to be reported at an Ordinary Council Meeting of the Council.

An assembly of Councillors includes advisory committees, where one or more Councillors were present, along with planned or scheduled meetings involving at least half of the Councillors and a Council Officer.

A Councillor who has a conflict of interest at an assembly of Councillors, must disclose the conflict of interest, and leave the meeting while the matter is being discussed.

A written record is required to be kept of every assembly of Councillors, including the names of all Councillors and staff at the meeting, a list of the matters considered, any conflict of interest disclosed by a Councillor, and whether a Councillor who disclosed a conflict left the meeting.

13. URGENT BUSINESS**14. CONFIDENTIAL ITEMS**

The Local Government Act 1989 section 89(2) allows Council to resolve to close a meeting to the public to consider confidential information relating to any of the following matters:

- (a) personnel matters;
- (b) the personal hardship of any resident or ratepayer;
- (c) industrial matters;
- (d) contractual matters;
- (e) proposed developments;

- (f) legal advice;
- (g) matters affecting the security of Council property;
- (h) any other matter which the Council or special committee considers would prejudice the Council or any person;
- (i) a resolution to close the meeting to members of the public

Where possible Council will resolve to make public any decision it makes in a closed meeting where the resolution does not disclose confidential information. There may be occasions where Council cannot make its decision public.

The report on the "Contract Award – Training Services Panel" is being considered in the closed part of this meeting because it is considered under S89(2)(d) that it may prejudice Council or a member of the public.

Recommendation:

That Council, in accordance with the *Local Government Act 1989* section 89(2)(d), resolve to close the meeting to the members of the public:

- **Contract Award – Training Services Panel**
