

**Table A.** The Code does not apply to:

- Agroforestry
- Windbreaks or other amenity plantings
- The occasional felling of trees for local uses on the same property or by the same landowner or manager
- Small plantations and woodlots of **five hectares or less**
- Plantings established for non-commercial purposes
- Revegetation operations conducted for the purposes of erosion or salinity control

**Table B** The following information is mandatory in THP's and PDN's:

	Plantation Development Notices	Timber Harvest Plans	
		Plantations	Private Native Forest
Landowner name	✓		
Nearest road	✓ (map)		
Location	✓ (map)	✓ (plantation map)	✓ (coupe map)
Species/Variety	✓		
Hectares planted	✓		
Year of planting	✓		
Landowner address	✓		
Harvest period start		✓	✓
Harvest period finish		✓	✓
Powerlines	✓ (map)	✓ (map)	✓ (map)
Retained native veg. in plantation	✓ (map)	✓ (map)	✓ (map)
Estimated timber volumes to be harvested		✓	✓
Proposed haulage routes		✓	✓
Significant areas within coupe (waterways, reserves, heritage)		✓ (map)	✓ (map)
Area to be harvested		✓ (map)	✓ (map)
New or upgraded roads		✓ (map)	✓ (map)
Plantation Infrastructure (bridges, log landings, snig tracks, culverts etc)		✓ (map)	✓ (map)
Fire protection measures		✓	✓
Conditions applying to activity eg Permit		✓	✓
Regeneration program to follow harvesting (if required)			✓

Note: THP and PDN documents must be lodged with the shire 28 days before the proposed activity commences.

**Table C** A Planning permit is required in following cases:

- Harvesting of private native forests (removal/destruction of native vegetation (CI 52.17)
- Local planning objectives -area of operation is within a land use management overlay eg wildfire, erosion
- Proposed area for new plantation establishment is > 40 ha (CI 52.18-3)
- Others?
